From Massachusetts to Virginia, 39,000 Verizon and Verizon Wireless workers have been on strike for over a month. Despite making \$39 billion in profits over the past 3 years, Verizon is trying to shut down call centers, send good jobs overseas, raise retiree health costs, and avoid negotiating a first contract with workers at Wireless stores. Join us to hear striking workers talk about what's at stake and find out how you can support this critical fight for working families in New York.

Meeting open to anyone who supports Verizon strikers and their fight for good jobs.
